Section VI - Health Hazard Data

Route(s) of Entry:	Inhalation?	Skin?	Ingestion?
	Yes	Yes	Yes

Health Hazards (Acute and Chronic)

Eyes: Exposure may cause noticeable pain and severe irritation and transient corneal injury. **Skin:** Causes chemical burns. Harmful contact may not cause immediate pain. **Inhalation:** Exposure to vapor or mist is possible. Short term inhalation is not likely to cause harmful effects: breathing large amounts may be harmful. Symptoms are more typically seen at air concentrations exceeding the recommended exposure limits. **Ingestion:** Harmful or fatal if swallowed. Causes chemical burns to the mouth, throat and stomach.

Carcinogenicity:	NTP?	IARC Monographs?	OSHA Regulated?
	No	No	No

Signs and Symptoms of Exposure

Gastrointestinal irritation (nausea, vomiting, diarrhea), irritation to nose, throat and respiratory tract.

Target Organ Effects

Overexposure to this material (or its components) has been suggested as a cause of the following effects in laboratory animals and may aggravate pre-existing disorders or these organs in humans: chronic ingestion may cause kidney and liver lesions at high doses.

Emergency and First Aid Procedure

Skin: Immediately flush with water for 15 minutes. Call physician if irritation persists. Completely decontaminate clothing, shoes and leather goods before reuse or discard. **Eyes:** Immediately flush with water. Remove contact lenses, if applicable, and continue flushing with water for 15 minutes. Call a physician immediately. **Ingestion:** Do not induce vomiting. Rinse mouth with water, then drink one or two glasses of water or milk. Call a physician immediately. Never give anything by mouth if victim is unconscious, is rapidly losing consciousness or is convulsing. **Inhalation:** If symptoms develop, move victim to fresh air. If symptoms persist, call a physician.

Section VII - Precautions for Safe Handling and Use

Steps to be Taken in Case Material is Released or Spilled

Small spills: Absorb with an inert solid and scoop up for disposal, then rinse soiled area with water down the drain. **Large spills:** Stop leak at the source and collect into a suitable container, then treat as a small spill.

Waste Disposal Method

Dispose of in accordance with all applicable Federal, State and Local regulations. **RCRA Information:** If this material becomes a waste, it would be considered hazardous under 40 CFR 261.22 and would be classified as EPA Waste Number D002.

Precautions to be Taken in Handling and Storage

Containers of this material may be hazardous when emptied. Since emptied containers retain product residues (vapor, liquid, and/or solid), all hazard precautions given in the data sheet must be observed. Store in a cool, dry place. Keep container closed when not in use.

Other Precautions

Keep out of reach of children.

Section VIII - Control Measures

Respiratory Protection (Specify Type)

If workplace exposure limits of product or any component are exceeded (see exposure guidelines), NIOSH/OSHA approved air supplied respirator is advised in the absence of proper environmental control. OSHA relations also permit other NIOSH/OSHA respirators (negative pressure type) under specific conditions (see your industrial hygienist). Engineering or administrative controls should be implemented to reduce exposure.

Ventilation	Local Exhaust	Sufficient	Special	N/A
	Mechanical(General)	Sufficient	Other	N/A

Protective Gloves

Wear rubber gloves (consult your safety equipment supplier).

Eye Protection

Chemical splash goggles in compliance with OSHA regulations are advised however OSHA regulations also permit other type safety glasses.

Other Protective Clothing or Equipment

To prevent repeated or prolonged skin contact, wear impervious clothing and boots.
